Mar 25, 2020

To our community,

As the current climate surrounding COVID-19 escalates, we at the Atikokan Medical Clinic will be taking extra precautions to protect the health of our patients and staff.

Effective immediately our clinic doors will be locked. Please do not come to the clinic if you have not first called ahead. We will maintain protocol and ask you to return home and call us at (807) 597-2721.

We continue to schedule physician appointments with patients and depending on the nature of the "visit", we will conduct a telephone, virtual video or in-person appointment. Your physician, depending on the nature of your "visit", will determine the most appropriate type.

To ensure physical distancing, appointments/entrance to the clinic will be staggered as much as possible. Please ensure you are arriving promptly for your scheduled time.

If you require clinic services for such items as forms, travel grants, etc., **please call ahead**. Our staff will be happy to offer support and direction during this very challenging time.

We thank you for your cooperation.

Respectfully yours,

Lisa Peterson
Clinic Manager
Atikokan Medical Associates
